Also over the present systems and lines and future extensions of the Great Indian Peninsula, and Bombay, Baroda and Central India Railways.

It has secured the business, good-will, licenses, and contracts belonging to, or being negotiated for by, the Eastern Electric Light and Power Company, of London, within the limits aforementioned. As also the concessions for the exclusive right of using, licensing, and selling the plant and appliances pertaining to the various patents now belonging to the London Company.

These patents include the Brush Dynamo Machine and Arc Lamp and the Lane Fox Incandescent Lamp, the license for the use and sale of the Swan Incandescent Lamp, and supplies of storage batteries of the Sellon, Volckmar and Faure patents.

In Europe and America the admirable results both as regards efficiency and economy obtainable from these various systems are well known and are becoming daily more widely appreciated.

About 13,000 Brush Arc Lamps are ready in use in the United States alone, and they soon promise to be almost as extensively adopted in Great Britain for town and other large lightings; whilst the Lane Fox and Swan Incandescent Lamps are equally successful for internal purposes. In securing these patent rights and powers, however, *the Bombay Company will not be restricted to their sole use, but will have the privilege of adopting any other improved systems or methods of working which may hereafter be developed.*

For India the advantages of Electricity over all other means of lighting are specially manifest. Gas, Oil, &c., are so much dearer than in Europe and America that competition in the matter of cost is on a very different basis, whilst its freedom from heat and noxious exhalations and absence of danger from fire peculiarly adapt it for use in hot climates. In fact, it is the light of the future for this country and there can be no doubt that both for public and private purposes it will rapidly come into extensive operation.

Although the Eastern Electric Light & Power Co. have only been represented here for a comparatively short time and have necessarily been largely occupied with preliminary operations, they are now in a position to hand over a business producing upwards of Rs. 50,000 per annum, and so confident are they, from the numerous applications for the light which they have already in hand, of the ultimate success of the undertaking that they GUARANTEE A DIVIDEND ON THE WORKING OF THE COMPANY DURING THE FIRST THREE YEARS AT THE RATE OF EIGHT PER CENT. PER ANNUM ON THE PAID-UP CAPITAL. After the business has been developed, the Directors think that a probable dividend of 12 per cent. might be calculated upon.

The amount to be paid to the Eastern, by the Bombay Company for the business, good-will, patents, licenses, concessions, &c., is Rs. 1,50,000 in Cash and Rs. 1,50,000 in fully paid-up Shares. These amounts, however, will be vested in Trustees for security of the guaranteed dividend.

The plant, machinery, buildings, &c., to be taken over will be at actual cost price.

No promotion money has been paid and all preliminary expenses of every kind up to, and inclusive of, the registration of the Bombay Company will be borne by the Eastern Electric Light and Power Company of London.

The working expenses of the Company will be based, as far as possible, on minimum monthly salaries and commissions on net profits.

Prospectuses and forms of application can be obtained at the Company's Offices, or from the Solicitors, Messrs. Prescot and Winter, or the Agent, Mr. John Marshall, where all the agreements above-mentioned may be seen and any information obtained.

*Prospectus and Application Forms will be issued with to-morrow's paper.*

# COMMERCIAL INTELLIGENCE

TUESDAY EVENING, JULY 10.

THE London financial telegrams report no changes in the leading Stock Exchange securities. The Money market continues easy, and both 3 and 4 months' sight bills are discountable at ⅜ per cent. The Bank of England's rate. Oriental Bank [illegible] quoted £13-10 ; Chartered 23 ; Mercantile 16 ; Hongkongs, [illegible].

[illegible] Produce markets there is no change in prices for Wheat or Seeds.

Manchester Piece-goods market is steady.

Liverpool Cotton market yesterday closed with a moderate business doing in Surats. The quiet ; sales 10,000 bales, of which 700 were Surats. With the exception of a drop in Good Broach, there is no other change to notice. In New York Middling Uplands at Liverpool have advanced 1-16 cent., and to-day 3 cents., and "futures" 8 points, the closing quotation being 9·30 cents.

The figures to date are given below :—

| | 1883. | 1882. | 1881. |
|---|---|---|---|
| Total receipts up to Saturday | 5,890,000 | 4,660,000 | 5,634,000 |
| Two days' receipts | 1,000 | 600 | 2,700 |
| Total since 1st Sept. | 5,891,000 | 4,610,200 | 5,636,700 |

EXCHANGE is firm at an advance of 1-32d. both for Bank paper and credits. Ready demand bills and forward for August, September, October delivery have been done at 1s. 7¾d., while three months' credits could not be placed under 1s. 7 13-16d. Rates are unaltered in Calcutta, six months' credits there being still quoted at 1s. 7 31-32d. to 1s. 8d. Bar Silver, according to Reuter, remains at 50½d. per oz. :—

| | |
|---|---|
| Bank Bills on Demand | 1s. 7¾d. |
| Do. Telegraphic Transfer | 1s. 7 7-16d. |
| Do. three months' sight | 1s. 7 21-32d. |
| Credits, do. do. | 1s. 7 15-16d. |
| Francs, do. do. | Fcs 2·08½ |

GOVERNMENT PAPER is quiet but steady, without any alteration in rates. Four per cents., Rs. 99¾ ; Four-and-a-half per cents., Rs. 104.

SHARES.—Port Canning have receded to Rs. 340. In Press shares Berars and Prince of Wales have advanced to Rs. 990 and Rs. 670 respectively, but Mofussils have given way to Rs. 460, while some New Indians were sold at Rs. 228½. Mill stock is steady, and rates are higher in some instances. " AGENTS WANTED."

DEFECTIVE OR FAILING SIGHT.

THE sense of sight is so valuable that the importance of perfect and carefully adjusted spectacles can scarcely be overrated ; although the wearing of single eye-glasses should be strictly avoided, we have the highest medical authority confirmed by daily experience, that imperfect glasses, together with the haphazard plan of selection generally employed, are frequent causes of irremediable injury to the sight ; and as no present economy can compensate for such a loss, it behoves all to be cautious how they are tempted to use the common pebble or glass spectacles now so generally sold.

For the guidance of those who are using pebble spectacles, it may be stated that when the scratches are cut *against* the grain, and are polished on the principle which has been found universally decried the most appropriate, based on scientific research, they are injurious to the sight.

Unadvisable as the unnecessary wearing of spectacles undoubtedly is, the common notion that their use should be postponed to the utmost is proved beyond dispute to be a grave mistake.

Being in possession of all the optical instruments taken over by us from Dr. A. Menist, we are not only in a position to suit the eye sight to perfection, but to supply different accommodations for each eye which so frequently are needed.

## NOTICE TO CORRESPONDENT.

"A SINDHI."—The question of the claims of the two gentlemen is scarcely a matter for a newspaper discussion.

# The Bombay Gazette

WEDNESDAY, JULY 11, 1883.

THE discussion which took place recently in London at the meeting of the East India Association, is not very lively reading, the fault perhaps lying in the subject rather than with the speakers. Everything that can be said for or against the Jurisdiction Bill, has been said already two or three times over. If new light is to be thrown on the matter it must come from events ; the prophets, whether of evil or of good, have done their best, and can say no more. Our old and genial friend, Colonel Prendergast Walsh, contributed what appears from the reports to have been out and out the best speech on the occasion in question. He had no doubt whatever that the Bill was a prodigy of "wickedness," and he said so. He had no doubt, either, that it is a very easy thing to get every county and town in England which returns a member to insist upon its representative fighting against the Bill, and getting the Home Government to insist upon its withdrawal. Doubting nothing, he spoke straight on, his eloquence and fire leaving nothing to be desired, but that the orator should occasionally touch ground, and get his feet firmly under him. Is it really believed by any one, either in India or in England, that all the constituencies, or even the half of them, take the faintest interest in Mr. Ilbert's Bill or in the agitation *pro* or *con* to which it has given rise ? They never trouble their heads about it at all. As for the House of Commons, it is a foregone conclusion that if Mr. Stanhope or Mr. Ashmead Bartlett be ill-advised enough to force the subject on its attention, the result will be a decisive majority in favour of the measure. "J. M. M." some weeks since stated that this fact was so fully realised by the opponents of the Bill that they had taken steps to dissuade Mr. Stanhope from bringing the question before Parliament. As for Mr. Ashmead Bartlett, he is irrepressible, and may produce an upset at any moment. Such being the state of affairs with the constituencies and in the House, Colonel Walsh's belief that he and his friends have only to go all over England to get the Bill withdrawn, "fully and without any compromise," is rather touching. Mr. Maclean, with a better knowledge of the political possibilities, refrained from any declaration of that kind, but stated that in his opinion Englishmen ought, if they valued their Eastern Empire, to demand the withdrawal of the Bill. Well, in our opinion, Englishmen, with the exception perhaps of Mr. Bright, value their Eastern Empire very highly, and perhaps upon that very account they will think twice before asking for the withdrawal of the Bill upon the grounds on which, unhappily, that demand has been urged by the most conspicuous of its opponents. And here we may be excused for referring to a statement made by Mr. Martin Wood during the speech which he contributed to this discussion. Taking exception, very fairly, to the statement so erroneously made, that European opinion in India is unanimous against the Bill, he referred to the letters of Principal Wordsworth and other Anglo-Indians in favour of it. So far he was right enough, but when he asked people to look at the stand taken in favour of the Bill by the *Bombay Gazette*," he misapprehends entirely the attitude held consistently by this journal in regard to that unhappy project of law. When the measure was proposed, the majority of our contemporaries were strongly in its favour. The *Indian Daily News*, the *Times of India*, and the *Pioneer*, like the *Madras Times* and the *Statesman*, hailed it as a creditable attempt at legislation for whose future the best hopes were to be entertained. We felt no enthusiasm upon the point. The Bill was a very little one ; nobody in particular, excepting Mr. Gupta and Sir Ashley Eden, had asked for it. What its practical effect would be, one way or the other, we confessed we did not know. We therefore reserved our opinion. On two separate occasions we pointed out that the Bill would leave the majority of Europeans in India, who live in the Presidency towns, precisely as they have been any time for years past. But we said it was possible that Englishmen in the Mofussil might take a different view of the matter, and we invited any expression of Mofussil opinion which would guide us in coming to a conclusion as to the probable operation of the provisions of the Bill, if it became law. To these invitations we received no response whatever until after the rumpus in the Calcutta Town Hall. Then we received a letter, not from the Mofussil, but from an enthusiastic young gentleman in Bombay, asking when the inhabitants of this city would follow the glorious example of Calcutta. Later on we received a few communications from the Mofussil, putting temperately and ably the view of the case which had been already put, not at all temperately, and without any conspicuous ability, by the orators in the Calcutta Town Hall ; and those letters we published. They formed but a small counterpoise to the number of letters which we received in favour of the Bill, many of which came from Calcutta itself, and elicited replies from the opponents of the Bill in that city [illegible] was needless to say in Western India. At all events, the Bill was not regarded as the knell of doom for the European community either in the Mofussil or in the Presidency towns. That it had ever been introduced was, however, to us a subject of regret, and if Mr. Wood or any one else will take the trouble to refer to Mr. Wordsworth's able letters to us at the time, it will be seen that he distinctly joined issue with our view upon that point. So far as the Bill *per se* was concerned, we should have been glad of any decent political pretext for shelving it, and thus withdrawing a subject of contention and ill-will from the arena of public controversy. But it became evident to us that the outrageous violence of the Calcutta agitation and the dangerous grounds upon which the claim to resist the Bill was based, changed the whole aspect of the question. Not only the authority, but the existence, of the Government was threatened. The Volunteers were induced to threaten to lay down their arms, the soldiers in the barracks were tampered with. It was asserted that India had been conquered by the sword and should be retained by the sword, and that a Government which presumed to listen to any voice but that of the dominant race forfeited its right to obedience. It was wholly impossible to take any part in a movement characterised by such insanity as this. There was a worse danger by far than the passing of a Bill which no one had been urgently asking for. There was the peril of seeing the prestige of the Government shattered at the very moment the natives were being taught that to carry a political object agitation of the most violent kind yet seen in India might be resorted to with every prospect of a successful result. When the Bombay Chamber of Commerce held a meeting conducted in a very different spirit from that which had disgraced Calcutta, we accepted its pronouncement against the Bill as fairly expressing the opinion of the majority of the European community at this side of India. To surmount the difficulty in the way of giving full effect to that opinion—a difficulty resulting from the astounding blunders perpetrated by the Calcutta firebrands—we suggested a compromise which would, in our view, have met the reasonable objections urged against the Bill, while preserving intact the principle which the agitators sought to impugn —that no man should be debarred from the full exercise of any office by reason of his "race, creed, or colour." What was the one reasonable ground on which the Bill was opposed ? It was this, that by some possibility a European brought before a native magistrate in some remote part of the Mofussil might have less than justice dealt out to him. This danger could clearly be obviated by giving to the European who could show any reasonable ground for his belief that justice would not be some [illegible] he might be tried before a European magistrate. The Bombay Government has suggested another means of arriving at the same result. Other suggestions have also been made. It seems to us a reasonable solution of the difficulty, that native magistrates should be relieved from a disqualification which has now by the folly and "wickedness" of certain of the opponents of the Bill been made odious to them, and not to them only, but to all their countrymen who are capable of forming any opinion at all on such a subject. The wisest thing to be done is to give over railing at Lord Ripon for having acted on Sir Ashley Eden's suggestion, and to see what is the best course under the circumstances that actually exist. It is to be regretted that so little attention is given to this practical point by those who took part in the discussion at the meeting of the East India Association. Some were for the Bill, the whole Bill, and nothing but the Bill ; others declared that no compromise or modification was possible. We differ from both. We hold that if ever there was a case in which compromise and modification were not only possible, but desirable, this is of the category. To find the means of safeguarding the European in the Mofussil from injustice at the hands of a magistrate is what is required, and all the perverse and mischievous rhetoric about the maintenance of race ascendency may be dismissed. We quite agree with Mr. Maclean's citation from Macaulay that as we cannot give India a free government we must give her a firm and impartial despotism. But the despotism must be firm as well as impartial. We cannot manage to combine imperial power with colonial irresponsibility. A despotic Government is not only endurable, but is under certain circumstances the best. But a despotism controlled and dominated by a set of bellowing Pretorians threatening to march upon Government House, can have no element of stability. We must dismiss as idle, and indeed preposterous, the fears expressed, that if the Bill should pass English capital would no longer be invested in India. Mr. Wood, who does not often trust himself to make a joke, said in this connection that if Englishmen were to leave India, Scotchmen would not. It is absurd to suppose that with the government in the hands of Englishmen, with an English newspaper press on the lookout for official delinquencies, with Englishmen ready to combine at a moment's notice to resist and resent any wrong to one of their number—any native magistrate could hope for immunity if he were to weight the scales against an Englishman. Whether he hoped for it or not, he would not find it. His ruin would be a matter of course. It is surprising to find that this prosaic view of the realities was not touched upon by any of the speakers on either side during the discussion. The Bill itself has always appeared to us what it appears to us still—a trumpery affair, beneath a statesman's heeding. Had Mr. Branson and "Britannicus," and the rest of them, left the measure within the pale of reasonable discussion, we should in all probability have opposed it. The administrative inconvenience which it was intended to anticipate had not actually arisen, and it could very well have waited until the necessity for it had become more obvious. As it is, we see more political danger in withdrawing it under the intimidation of the brainless agitators who first constituted themselves the leaders of the opposition than in carrying it through, with or without modification. Nevertheless we hope that a compromise will be effected which will secure to both sides all that can be properly claimed—to the one entire security against the possibility of individual oppression, and to the other collectively the authoritative repudiation of the principle sought to be laid down [illegible] rule of government, that India is held, as Colonel Prendergast Walsh frankly expressed it, "by blood and iron." India is not held by so precarious a tenure, and those are not the safest advisers of Government who believe that it is.

WE hear that it is contemplated by the Bombay Government to introduce a short Bill to compel the villagers to take energetic measures against the locusts. It is certainly very desirable that war should be declared against these pests. For the last few weeks so much has not been seen of them in the districts, but they are not on that account the less to be feared. They are turning themselves into eggs with an assiduity worthy of a better cause. When they have deposited several scores of eggs apiece in the unsuspecting ground, they die and are seen no more, but in a few weeks they will rise again in myriads and devour every blade and leaf for leagues around. Captain Bor has his machines ready, and will, no doubt, do his best, but India is not Cyprus, and it is quite possible that the devices which were successful in the latter country will not succeed in this. The desirability of supplementing the efforts of the Government expert by the exertions of the rural population *en masse* is self-evident. Still it is a question whether the natives will like being compelled to turn out and kill locusts, or anything else for that matter. It will be remembered that a somewhat similar question arose during the great plague of rats after the famine years. When the rodents moved in their millions through certain districts of the Deccan, the villagers allowed everything to be eaten rather than kill living creatures, which possibly were animated by the souls of those who had died of famine. Ultimately, Sir Richard Temple took steps which were successful. He got the district officers to employ the lower castes who had no scruples on nice points of doctrine to kill the rats, in order to earn a handsome reward for their tails. Something of the same kind might be done in the case of the locusts.

THE prospectus of a Bombay Electric Light and Power Company, Limited, has been issued. The capital to be raised is twelve lakhs, and the Company will take over the business, good-will, licences, and contracts possessed by the Eastern Light and Power Company of London in this Presidency. A strong Board of Directors has been formed, at the head of which is the Hon. S. D. Sassoon, and it is stated that the new Company will acquire a business producing at present Rs. 50,000 per annum. That there is full scope for an Electric Light Company in this Presidency, no one can doubt. The Brush lights, of which this Company proposes to acquire the monopoly, have gained a great reputation in America and in England. There is no reason, therefore, why it should not succeed in introducing electric lighting on an extensive scale. We naturally take a considerable interest in the progress of the new illuminating agent, of which we were the pioneers in Bombay. Our own experience, which has been gained with the Jablochkoff system, has satisfied us of the advantages of the electric light, which is more economical, is incomparably more brilliant, and is much less heating than gas. We therefore wish the new Company well, and we think there is abundant room for its operations. It is satisfactory to find that for the first time a considerable capital required for a public enterprise of any magnitude, is being raised in India itself, instead of being procured from abroad. The Bombay Gas Company found its money in England, and its dividends go to England. The Tramway Company procured its capital in New York, and its earnings go to New York. So of the railways. The twelve lakhs which are now required will be raised in Bombay, and the dividends, if they be forthcoming, as may be expected, will enrich Bombay, and not London or New York.

WE recently gave the substance of the two local Self-Government Bills prepared by the Bombay Government and forwarded to the Secretary of State for his approval. Both Bills have now been sanctioned by Lord Kimberley, and they will be, we understand, published in the next Bombay *Government Gazette*. Allowing some six weeks for the discussion of the Bills by the press and the public, they will be submitted to the Legislative Council by the end of August.

LORD EDMOND FITZMAURICE'S statement respecting the alleged treaty regulating the North-Eastern frontier between Russia and Persia is, no doubt, strictly correct. The probabilities are that no such treaty as that reported exists. The telegram from Teheran, as we pointed out at the time, supplied internal evidence which discounted its authenticity. At the same time, we hope Her Majesty's Government are not overlooking the fact that negotiations are going on for defining the frontier, and that an agreement may be come to at any time. What this agreement is likely to be we have already stated ; though, of course, in dealing with Russia on territorial questions, no amount of foresight can foreshadow the extent of her demands.

## THE POONA SEASON.

(FROM OUR OWN CORRESPONDENT.)

POONA, JULY 8.

THERE is but little of interest to record during the past week. After the introductory dance at Ganesh Khind there has been a decided lull in the festivities, and dissipation for the most part has taken the shape of dinner parties of sorts and sizes, from the precisely official of the "Zabardasti se volunteer" description to the merrier gatherings where the guests bidden seldom exceed in number the muses, nor fall short of the graces, where the conversational ball flies cheerfully round, and the flippant jest is not unknown ; in fact, where Poona disports itself in mufti. This is, however, but the calm before the storm. Next week we shall live in a perfect whirl of gaiety. Already unfeeling husbands have issued stern ultimatums relative to the number of nights' rest they feel disposed to sacrifice at the call of duty, and have thrown out hints of a Co-operative Society for the division of labour. There is not an evening next week which has not an engagement, dancing or otherwise. But why should I encroach in anticipation on what I hope to treat of retrospectively in my next letter ? Sages have philosophized and written, poets have mused in soft allyance of the pleasures of [illegible]

## EGYPTIAN NEWS.

(FROM OUR OWN CORRESPONDENT.)

ALEXANDRIA, JUNE

SOME dissatisfaction is being shown at the slow manner in which the indemnity claims are being settled. One case, a claim for damages done to a house at Zagazig by the Indian Contingent, after the battle of Tel-el-Kebir, which was forwarded to the authorities as far back as October last, still remains unsettled, and as the members of the Commission intend shortly to adjourn for leave of absence, which will extend over the hot weather, unsettled claims will suffer a still further delay. An idea of the damage done to Egyptian commerce by the Arabi rebellion and the eventual campaign may be gathered from the fact that the estimated value of imports for 1882 amounted only to £5,700,303, and exports £11,150,000, against imports £7,115,325 and exports £13,515,393, the estimated value for the preceding year.

Thanks to Sir Auckland Colvin's suggestion last year, the census returns for Egypt are now completed. The entire population of the country is fixed at 6,798,200. Out of this number, 3,393,928 are men, and 3,404,302 women. The population of the principal towns is :—Cairo, 368,108 ; Alexandria and suburbs, 208,775 ; Port Said, 16,560 ; Suez, 10,913 ; Tantah, 33,725 ; Damietta, 34,046 ; Rosetta, 16,671 ; Mansoura, 26,784 ; Zagazig, 19,046.

From Upper Egypt the reports are unsatisfactory, it being stated that both the wheat and bean crops are below the average ; consequently serious distress among the fellahin is anticipated.

The *Egyptian Gazette* of the 23rd June briefly sums up the difficulties which beset the Police authorities in this country, viz., international obligations, the apathetic nature of the majority of the population, the obstruction caused by public functionaries behind the age, and more important still, the ill-defined line that separates the functions of police from magisterial duties. A superintendent of police in Egypt has matters far less in his hands than in India, and although officers of such experience as Messrs. Lascaris, Vitrent, Prescott, and Cobs will doubtless reduce such difficulties as abovementioned to a minimum, and place matters on a firm basis, the work that lies before them is far from easy, and some time must necessarily elapse before much appreciable good can be effected in the police administration. With regard to Alexandria, there is still a good deal of room for police intervention and reform. That shopkeepers should be allowed to monopolise the pavement as a verandah, either to display their wares or as a lounge to smoke and drink coffee, seems a little irregular. The manner in which hack carriages blockade the narrow streets is a nuisance which might also be avoided ; and a fixed tariff for the hire of carriages generally should certainly be issued. Lastly, could not something be done towards getting rid of counterfeit coins, which are circulated pretty freely, from the dollar down to the piastre ? These are, of course, minor details of police administration, and should, therefore, be the more easily overcome.

The Admiralty have conferred the Egyptian war medal on the following gentlemen in recognition of their services during the operations in Egypt last year :—Messrs. F. A. Allchin, H. Croghan, J. A. Muir, E. Munro, J. R. Norrish, C. Routh, P. Towrist, J. Wallace, J. Ross, and C. R. Chapman, agent of the P. and O. Company in Alexandria. The Admiralty have, no doubt, reasons for their generosity, and the civilians who assisted the Government under the trying circumstances previous to, and during, the campaign of 1882 certainly deserve some recognition for their services. It is said that the captains of transports who carried troops to Egypt are also to receive the Egyptian medal.

Railway travelling in Egypt is now, perhaps, not quite such an undertaking as it was some years since, but there is still room for improvement, which the following instance will help to illustrate. A few hours before the Indian mail train of the 28th June reached Kafr-Zayat a collision took place some distance beyond the station between

THE Agent of the P. and O. Co. informs us that the s.s. Malwa leaving Bombay on 24th July, will proceed to London instead of to Brindisi and Venice.

THE P. and O. mail-steamer sailed yesterday with the Viceroy's foreign despatches and the Punjab mails of last week. The Bori and G. I. Railway caused five damages to the B. B. and C. I. Railway by the overflowing of the Taptee and the Poorna, the Punjab and Simla mails failed to arrive in Bombay in time for despatch by the Ballarat, which sailed on Wednesday last, after having been detained for twenty-four hours. This week's Punjab mails arrived yesterday afternoon, having come by a special train from Surat; so that the Bokhara takes two weeks' despatches for the Secretary of State, and two weeks' Punjab mails. They were immediately taken on board. The arrival of this week's mails in England will be considerably delayed, as, owing to the cholera scare, the Bokhara has been ordered to proceed direct to Plymouth, without calling at Brindisi.

THE latest news from the flooded districts of Surat is that the water is rapidly subsiding, and that so far as the B. B. and C. I. Railway is concerned the outlook has greatly improved. It is stated, however, that the river Mauye is still dangerously swollen, and that rain is the prevailing feature of the weather in that neighbourhood.

OF the appointment to the Finance Membership, the *Statesman* says:—"The difficulty, apparently growing steadily greater, of getting the best men to come out to India, even for the highest posts, is again exemplified in the appointment of a new Financial Member of Council. The Government have been forced to fall back on Sir Auckland Colvin, an able man unquestionably, and one whom it had perhaps become difficult to dispose of conveniently, but not the sort of man that was needed to supply the place of Major Baring. The appointment will be no disappointment to Mr. Hope, who is perfectly pleased with his present post, in which he does the State good service; but there are not a few who would have preferred him as Finance Minister to Sir Auckland Colvin."

IN Assam, while Mr. W. E. Ward is acting for Mr. C. A. Elliott as Chief Commissioner, Mr. C. J. Lyall, Secretary to the Chief Commissioner, will officiate as Secretary and Commissioner of the Assam Valley Districts, Mr. E. Stack taking up Mr. Lyall's work.

ACKNOWLEDGING receipt of the official reports on the Cachar floods, the Government of India write to Mr. Elliott, Chief Commissioner of Assam:—

"It is unnecessary to recapitulate the facts or to notice more than two points. In the first place, Mr. Lowis's report is extremely gratifying, in that the actual loss is slight, and that no serious distress is anticipated. The measures which you have taken to afford relief where required appear to be quite sufficient. In the second place, His Excellency-in-Council entirely concurs in your commendation of the action of the Deputy Commissioner, and considers that from first to last Mr. Wright has displayed sound judgment and energy, and there can be no doubt whatever that Mr. Wright was fully justified in representing to the Calcutta tea agents that the coolie population on the Cachar tea-gardens was threatened with scarcity, and in urging them to send extra supplies of food. In regard to the ordinary population of the district, Mr. Wright appears to have done all that was possible to provide for their wants through local sources. His arrangements seem to have been extremely successful, and to have been made without any undue interference with the private trade. In conclusion, I am to request that the thanks of the Government of India and its entire approbation of his conduct may be communicated to Mr. Wright."

*The Indian Opinion* suggests that advantage should be taken of "the present great journalistic activity which has greatly helped to destroy the difficulty of opinions among native editors," to form an Editors' Club. "If there be a unity prevailing all over the native editor world, and if a subject taken up for the welfare of the country by one be seconded unanimously by every other editor, then there is a great hope of seeing it carried out. The object of this club will be to establish this unity among different editors, and to suggest from time to time what ought to be done for the promotion of native welfare."

KURRACHEE has been rather upset by the burst of the embankment, which will have been thoroughly welcome in other parts of Sind. The *Sind Gazette* of July 7 says:—

Nearly two inches of rain fell in Kurrachee during this week up to noon yesterday. Judging from the sad havoc made with some of the mud walls of buildings and the generally wretched and muddy appearance of roads and compounds which are not actually metalled, one would think that ten inches of rain, at least, had fallen. There are between thirty and forty thousand bags of wheat lying in the compound of the railway station, and as it was impossible to remove the grain, and there was no shelter for it, a considerable portion must have been seriously damaged. Nearly every merchant's compounds full of stacks of grain of which there is one or less exposed to the bad weather. Not only has the rain been severe and injurious as regards the houses and exposed grain, but the wind has been stormy and boisterous. On Tuesday night there was very heavy dust-storm was experienced for a time, and on Wednesday during a squall the s.s. Orsino parted her moorings and drifted ashore in the harbour, finished any damage.

ATTENTION is called by the *Statesman* to an assertion in the *Calcutta Review* regarding the position of the Government in the matter of the Jurisdiction Bill, that "the Government has called for certain opinions and promised to abide by them." The *Statesman* says:—"We challenge any one to produce the promise, or to prove that it was ever made. We are of opinion that the statement that the Government 'staked the question on the result of an appeal to official opinion,' that it 'called for certain opinions, and promised to abide by them,' is not true. But if it is true, it can easily be proved, for the promise must have been expressed in words, and the words can be quoted. The only promise of which we are aware was made in the following words by the Viceroy:—'We shall then give to the observations of the local Governments and of the public which may have reached us in the meantime, the fullest weight and the most deliberate consideration.' But if a man asks for opinions, and promises to weigh and deliberate upon them, does he bind himself to abide by them?"

A MADRAS paper gives currency to a strange rumour that Mr. Wallace, Judge of Cuddapah, has been suspended from office on account of an angry interview with the Hon'ble Mr. Carmichael, in which he indulged in reflections upon the latter's honour. The whole affair is reported to have been referred to the Viceroy.

A NOSSI BE (Madagascar) correspondent writes to a Réunion paper, under date 11th May, regarding the bombardment of Matagasy villages on the coast by the French men-of-war:—"The French action has been very energetic and very methodical. Properties not belonging to the Hovas were scrupulously respected, as also the rice and coffee plantations. In short, they only destroyed the Hova military posts on the north-west coast. The Hovas offered no resistance with the exception of the chief of the village of Bémaneorky, who was killed with two other men."

SIR JOHN POPE-HENNESSY landed at Mauritius on June 1, and met with an "enthusiastic reception." A week later, a levée was held by the new Governor, regarding which the *Merchants' and Planters' Gazette* says:—"No greater compliment could be paid to a Governor than that which took place at the levée, where more than 600 persons called the Queen's Representative. In its speech at a banquet given in his honour by the Municipality, on June 12, Sir J. Pope-Hennessy spoke as follows of Lord Dufferin:—

He was present at the Colonial Institute last year when a paper on the progress of Canada was read, and when the secret of Lord Dufferin's success in governing that community of French British subjects was explained. Lord Dufferin is admitted to be the ablest and most successful representative of the Crown that Her Majesty has sent abroad in our time. What did the Colonial Institute learn was the secret of his success in Canada? "That he knew no distinction between Protestant and Catholic, French or English: that he created a truly national element: that he flung upon the highest positions to all on terms of perfect equality." Happy, indeed, would be the Colonial Governor who ever, on the smallest scale, could emulate Lord Dufferin.

SAYS the *Pall Mall Gazette* of June 22:—It is to be hoped that those whom it concerns are keeping their eyes on Mr. Bradlaugh's demonstrations in the country. Some important newspapers boycott them pretty steadily, and lead their public to suppose that the defeat of the Affirmation Bill has extinguished Mr. Bradlaugh and his friends like a handful of dust thrown on angry insects. What is really happening, as the proceedings at Halifax, Bristol, and other places show, is the rousing of a vehement feeling on the question by the Tory-Irish majority of the rights of a constituency. Mr. Gladstone deprecated the excessive strength of language in some of the resolutions passed on these occasions, but we shall not be wrong if we take it that for once strong language goes with deep and lasting feeling.

ACCORDING to the *Evening News* of June 19, "most of the Continental journals are charmed with the new express, a 'lightning train,' which now carries the traveller from the west to the east of Europe from Paris to Constantinople, in eighty-four hours. It is to run twice a week, and the first train only lost six minutes between Paris and Bucharest, in spite of the delays for Customs examinations at the frontiers of the successive States through which it passes. The luxury of its appointments seems to surpass all that has hitherto been attempted in the branches of railway decoration and railway cookery. The carriages have carpets from Smyrna two inches thick. The walls are ornamented with gilded Japanese leather tapestry. The dining carriage is magnificently furnished and the *cuisine* is under the direction of a first-class *chef*. The serving is on a level with that of the best hotels. The train is lighted with gas, which is carried in a reservoir. Good French country wines are served at something under 2fr. a bottle, and the British traveller can have Bass and Guinness if he is willing to pay a Continental price. The route taken by the through train goes by way of Avricourt, Munich, the Vienna, and Bucharest to Varna, whence its passengers are forwarded by steamer to Constantinople. The first train was arrested by an accident at a Roumanian station, where a mountain torrent had burst over the line. The sleeping waggons are provided with sixteen beds, which are sufficiently long for a tolerably-sized man to lie at full stretch. This cannot be said of every *schlaf-wagen* on a Continental railway."

AN important point of law arose under the new Married Women's Property Act, before Mr. Justice Chitty. In the case of Mander *v.* Harris (*in re* March, deceased), a simple gift of certain property was made by will to a husband and wife and a third party; and the point for decision was whether the husband and wife under the will took half the property, or whether they were entitled to one-third each. Hitherto it has always been a principle of English law to regard husband and wife as one person, not divisible into two moieties. But since by the Act referred to the wife is distinctly treated as a separate person, it was argued that this was no longer the case; and this view was taken by Mr. Justice Chitty, who held that the new Act had effected so great an alteration in the law of the relations of husband and wife that the old idea of their unity as to rights of property could no longer be held to exist. Accordingly, his lordship decided in the case before him that the parties must take one-third each as joint tenants, and not one-half only between husband and wife.

INTELLIGENCE received at Madeira from Sierra Leone announces that another destructive raid having been made into British Sherboro by the "war boys" of the robber chief Gbpowe and other Mendi chiefs, Mr. Pinkett, the Administrator-in-Chief, following up his recent expedition to the Bom and Kittam Rivers, embarked from Freetown on the 16th of May with 120 men of the 1st West India Regiment, under the command of Major Talbot, and seventy police. The expedition proceeded up the Jong River as far as the stockaded towns of Mamalaghi, Cortemahoo, and Hahoo, which were taken and burned. Chief Gbpowe's stronghold at Talliah, where not fewer than 1,500 warriors were assembled, was next attacked. The rocket batteries and field-guns, under the command of Captain Jackson, R.A., did great execution. The friendly natives who accompanied the expedition fought with much zeal against their ancient and powerful foe. No loss was sustained on the British side, but it was estimated that the enemy had over 200 killed. The town was entirely destroyed, and Gbpowe himself only escaped with great difficulty. A reward has been offered for his capture, which, it is expected, will be effected. The other chiefs in the disturbed district were making their submission, and the peace of the surrounding country was becoming restored.

A CHARGE of threatening to murder the Bishop of Norwich and to destroy his palace and Norwich Cathedral was preferred on June 19 at the Norwich Police-court against Joseph Betts, commission agent, of Norwich. In a letter, which was signed "Invisible," the writer said that having recently been appointed chief agent to a secret society in Norwich, having for its object the equalisation of property, and the distribution of the land of the United Kingdom to those who labour, his directions were first to write to him, as spiritual chief in this district of the kingdom, that the re-earning class fully recognised the fact that he was receiving £5,000 annually for work that would be done at a cost of £500, while poor cutlates were doing more practical work for 30s. per week, and that if he were not prepared to resign his position as bishop or be content, with £500 a-year, and cause a declaration to that effect to appear in the newspapers, he must prepare to meet an early death at the hands of those whose existence in the world was blighted by the drain made upon their resources by him and others of his profession. The writer concluded, "If the conditions of this letter are not complied with, that you distribute your great worldly wealth to your poorer brethren, as an example to others of your clique, and the moneyed class generally, in less than six months your palace will have been demolished, together with your cathedral, and your life and those of your dearest relatives will be forfeited to the rage of the awakened and oppressed poor.—An Invincible." The letter was handed over to Chief Constable Hitchman, who, after making inquiries, directed the apprehension of the prisoner, at whose house other letters addressed to several public men were found, the handwriting in which corresponded with that of the threatening epistle. The prisoner was remanded.

A., was charged before a District Court-martial with breaking out of barracks on the 23rd June, and with removing certain articles of his regimental necessaries, and also with assaulting Inspector J. Ralph, Bombay Police, while in the execution of his duty. The Court found the prisoner guilty, and sentenced him to six months' imprisonment. Gunner John Alexander, R. A., was charged before a District Court-martial with losing by neglect certain of his regimental necessaries, and with disobeying the lawful command of his superior officer and using insubordinate language, and was sentenced to six months' imprisonment with hard labour.

### STATIONS OF THE HYDERABAD CONTINGENT.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—With reference to the letter in your issue of the 29th ult., regarding the removal of the military station of the Hyderabad Contingent at Lingsugar to Raichur, I have good reasons for stating that it is very unlikely the proposed change of stations will take place, as a committee which assembled at Raichur last year for the purpose of choosing a site for a cantonment, reported that there was no such site suitable in the vicinity of Raichur.

### RIFLE SHOOTING.

THE prize list for the Tenasserim Rifle Association All Comers' contest has been issued, from which we find that not one of the twenty prizes offered falls to a score of less than 38 out of the highest possible of 40. The distance fired at was 500 yards, the number of shots ten, position, targets and scoring regulation. Several members of the Bombay Volunteer Corps competed for the match at Cooria, but the highest score made (36) comes forty-ninth on the list. Some of the competitors entered an immense number of times, and Lieut. Hutchins, Moulmein (Hony. Secretary of the Association), we see made five good scores:—40 at his 91st entry; 39 at his 85th entry; 39 at his 73rd entry; and 39 again at his 20th entry. Vol. St. Clair, of the Moulmein Corps, made two 38s (at his 1st and 13th entries) and 40 (at his 37th entry). Another Moulmein competitor made the full score, namely, Sergt. H. Lutter, at his 11th entry.

We give the names and scores of the prize winners:—

| Rank and Names. | Where fired. | No. of Entry. | Total. | Prizes. |

Counted out.

The Honorary Secretary appends the following note:—"Sergt. Instructor Stone, of the 3rd Punjab Volunteer Rifles, Phillour, also scored 40, but inasmuch as the conditions of the match were not complied with, there having been according to the register only one shot competitor present, the Council of the Association were compelled to disallow it, and had no other alternative than to reject that register. This was the only irregular score sheet sent in; generally speaking the attention and care bestowed on the rifle fulfilment of the conditions have been well brought out by the close scrutiny to which every register was subjected. To the various superintending officers and local secretaries the Council of the R. I. A. have much pleasure in expressing their sense of the satisfactory manner in which the shooting arrangements were carried out at the stations where firing for this match took place."

### BOMBAY GYMKHANA.

THE following is the Report of the Committee for the half-year ending 30th June, to be submitted to the general meeting to be held in the Pavilion on Wednesday, 25th July:—

The total number of members of the Gymkhana is 489, of whom 215 were resident on the 30th June, 1883. Of these 48 are new members enrolled during the half-year, and 4 are golf-playing members only. At the half-yearly general meeting on the 31st January, 1883, the Committee for the half-year was elected by ballot with the following result:—The Hon'ble L. H. Bayley—President. Sir Arthur, Esq.—Treasurer & Joint Secretary. R. S. Campbell, Esq.—Joint Secretary. T. H. Moore, Esq.—Cricket Secretary. R.L. Stewart, Esq.—Boating Secretary. C. Gray, Esq.—Polo Secretary. C. Browne, Esq.—Hockey Secretary. R. Mc-Owen, Esq.—Bowls Secretary. F. L. Steel, Esq.—Racquet Secretary. W. M. Tennent, Esq.—L. R. W. Forrest, Esq.—M. R. Wyer, Esq., and E. M. Slater, Esq.—Additional Members.

The following changes have taken place during the half-year:—Mr. F. C. Bridgeman has succeeded Mr. Arthur as Treasurer and Joint Secretary; Mr. H. A. Acworth, and Mr. Moore as Cricket Secretary; Mr. Oliver, and Mr. Macrae as Golf Secretary; and Mr. Oliver, and Mr. Tennent as Additional Members.

The annual athletic meeting was very successful. The sports were held on the 2nd and 3rd March. The entries for the various events were good, and the competition keen. The result was satisfactory to see visitors winning some of the events, and it is hoped that the entries from outstations will yearly increase. The "Young Cup" was won by Mr. Lyle, who also won the "Gymkhana Challenge Cup." Mr. Crawford from Poona won the "100 Yards Challenge Cup" and both the High and the Long Jump. Mr. Grantham from Poona won the Mile. Lawyers Challenge Cup." For the Challenge Tournament, to which there were good entries and some capital games. The Poona Gymkhana, represented by Mr. Hart and Mr. Marriott in the double and by Mr. Marriott in the single, were successful in both tournaments. It is hoped that next year there will be representatives from several up-country stations. The Badminton Challenge Tournament was also won by the Poona Gymkhana, represented by Mr. Hart and Mr. Kennedy.

A Dog and Pony show was held on the 28th February and was most successful. Sky Races were held on 10th and 14th March on the Mahalakshmi Course, which was kindly lent by the stewards of the Bombay races. The meeting was very much hampered under difficulties owing to the cramped nature of the ground available for playing on, but it is hoped that polo will flourish during the monsoon, as Government has now given permission to the Gymkhana to play polo during the Esplanade ground on one evening of the week and on the morning of the brigade holiday. The annual tournament will be held about the end of September. There are already several entries, and the competition for the Challenge Cup is looked forward to with much interest.

At the annual Regatta of the Bombay Yacht Club, held on 1st of March, the Gymkhana pulling boat won the Challenge Fours. Lawn-tennis has been very popular, and there have been some interesting tournaments during the half-year. The "Marryat Challenge Cup," for which there were many entries, was won by Mr. Nicholson. The Bowling Green continues to be much patronised, and some good handicaps and matches have been played. Golf has been regularly played during the half-year, and considerable interest has been taken in the competitions for the various cups and medals. The St. George's Medal and the Gymkhana Challenge Cup were won by Mr. Spence.

The Racquet Court is in excellent playing order, and, though not the financial success the Committee could wish owing to the heavy burden of interest, &c., continues to be a source of great attraction, and is undoubtedly a valuable addition to the Gymkhana. Double and single handicap matches were played in February and March, and silver cups presented by Major F. Spring, R.A., and H. A. Acworth, Esq., C.S., were played for in an open double handicap. There were five entries—Poona Gymkhana, Byculla Club, Ladies' Gymkhana, Yacht Club, and Bombay Gymkhana, the last named winning the final contest.

Cricket has again been fairly supported by attendance for the first match (Eleven *v.* Twenty-two), there is every prospect of a successful season if the weather is favourable. Two ground bowlers have been engaged from the Royal Lancaster Regiment, and the attendance at evening practice has been very brisk. The thanks of the members of the Gymkhana are again due to the officers of the Bombay Volunteer Rifles for the very kind way in which they have lent their band.

FLORILINE!—FOR THE TEETH AND BREATH.—A few drops of the liquid "Floriline" sprinkled on a wet tooth-brush produces a pleasant lather, which thoroughly cleanses the teeth from all parasites or impurities, hardens the gums, and imparts a delightful sensation to the mouth, peculiar to pearly whiteness, and a delightful fragrance to the breath. It removes all unpleasant odour arising from decayed teeth or tobacco smoke. ### HIGH COURT.—JULY 10.

(Before the Hon'ble Mr. Justice BURDWOOD.)

#### ORDER FOR THE SALE OF A SHIP.

HAJEE JACKERIA HAJEE ARMED *ES.* THE BARQUE CHOICE AND CAPTAIN HARRISON.

Mr. RUSSELL, instructed by Messrs. Crawford and Bowrey, appeared for the plaintiff. Captain Harrison, the master of the barque Choice, appeared in person. The plaintiff prayed that it might be declared that a bottomry bond, dated 4th April, 1883, executed by the defendant in favour of the plaintiff, is good and valid, and that there is due thereon to the plaintiff the sum of Rs. 26,485, with interest at 6 per cent. per annum from 5th June, 1883; that the vessel Choice, her tackle, &c., may be sold by order of the court, and that out of the proceeds the plaintiff may be paid the above amount, with interest, &c. The facts of the case are these. The Choice, whilst lying in the harbour of Port Louis, Mauritius, was arrested by virtue of a warrant issued from the Vice-Admiralty Court of that colony in a certain suit then pending in that court in respect of a bottomry bond subscribed by Captain Harrison at Calcutta on the 10th October, 1882. The bond provided for the repayment of the amount advanced at Port Louis; and as the amount was not paid, the vessel was arrested. Captain Harrison, having chartered the vessel to the plaintiff for a voyage from Port Louis to Bombay, and being ready to start, and being without funds and unable to obtain money, requested the plaintiff to lend him Rs. 21,000 to pay off the balance which remained due on the bottomry bond. The defendant by a letter replied that there was nothing with which to pay the bond except the vessel, as he and the co-owners in England had no means, but that the vessel, when sold, would realize more than the amount of the debt. The bond was overdue at the date of the filing of the plaint.

The claim was proved. Captain Harrison made certain admissions; and his lordship gave a judgment for the plaintiff for Rs. 26,485, with interest and costs. It was ordered that the vessel Choice, her tackle, &c., be sold, and that out of the proceeds the deficiency, if any, to be paid by the defendant Captain Harrison. It was directed that Messrs. Meacese and Co. do sell the vessel by public auction, the expenses of such sale over and above the sum of Rs. 100 to be borne by the plaintiff. The sale to be advertised in two English and two native newspapers in Bombay. Liberty to the plaintiff to bid at the sale.

COWASJEE DINSHAW ADENWALLA AND OTHERS. *ES.* MAJOR HARRY TREVOR BULKLEY.

MR. ANDERSON, instructed by Messrs. Smith and Frere, for the plaintiffs, said that this suit was brought to recover Rs. 1,638, the balance of an account due by the defendant, a Major in H. M.'s 30th Regiment, now stationed at Hyderabad, Sind. A long correspondence had taken place between the solicitors of the parties. The defendant admitted the claim, but put off payment from time to time. The claim was proved; and his lordship gave a decree for the plaintiffs for Rs. 1,638, with interest and costs.

THOMAS FISHER PUNNETT *ES.* SOORJEE POONJA AND ANOTHER.

MR. LANG, instructed by Messrs. Smith and Frere, for the defendant, applied that the case be transferred to the list of long causes. The second defendant had put in a written statement denying partnership with the first defendant. Mr. Jardine, instructed by Messrs. Prescot and Winter, for the plaintiff, said he left it to the court to deal with the application. His lordship directed that the case be transferred to the long cause list.

#### CONTRACT FOR THE SALE OF A HOUSE.

CHOONILALL PUNALAL *ES.* BOMONJEE MUNCHERJEE MODY AND ANOTHER.

This afternoon his lordship delivered judgment in the case, which was heard last month. The plaintiff, a jeweller, prayed that the defendants' brothers, be decreed to specifically perform an agreement of the 11th May, 1882, for the sale to him of their house in Abdool-road, and present in the alternative a conveyance thereof, and that they be decreed to pay to him Rs. 1,000 as compensation for withholding the same. The defendants, Framjee and Muncherjee Mody, the sons of himself and the first defendant, contracted in May last to sell to the plaintiff the house in question for Rs. 13,250. At the execution of the contract the plaintiff paid Rs. 1,000 as earnest money, and it was agreed that upon the defendants making out a good title to the premises, and causing a deed of conveyance to be prepared through their own solicitors within two months from the date of the agreement, the balance of the purchase money was to be paid by the plaintiff. In his defence, the first defendant said that his brother Merwanjee, had no authority to enter into the agreement, and, moreover, executed on the condition that he should give his consent to the sale before it was completed. His lordship, in disposing of the case, said that the decision must be in favour of the plaintiff. It was proved that the facilities of the case that the bargain paper should have been executed by the elder brother in the absence and without the consent of the younger brother. His lordship held that the contract was made by both the defendants. As to the claim for compensation the learned judge thought that it would be sufficient to give interest on the deposit. A decree was given for the plaintiff for specific performance, with interest on the deposit at 6 per cent., and costs.

(Before the Hon'ble Mr. Justice LATHAM.)

#### AN ORDER FOR THE DISPOSAL OF A DEAD BODY.

MR. VANDER STRAATEN, the Deputy Sheriff, applied to his lordship in chambers to confirm an order given by Mr. Raghunath Narayen Khote, C.I.E., the Sheriff, for disposal of the dead body of Hurrichund Ramdutt, a debtor confined in the County Jail. It appears that the deceased was arrested in March last under a decree in a civil suit, and was confined in the County Jail, where he died on Monday night. According to the jail regulations, a coroner's inquest was held on the body yesterday morning, and a verdict of death from fever was recorded. Under the belief that the body of a debtor, legally attached, belonged to the judgment creditor according to recent English precedents, the jail officials applied for the Sheriff's order for the disposal of the body, representing at the same time that it would not be safe to keep it within the jail precincts longer than was absolutely necessary. Mr. Khote, with a regard for public interests, issued the order at once; but the Anglo-Indian solicitor forming the judgment Sheriff made the application to his lordship above referred to. Mr. Justice Latham confirmed the order accordingly.

### THE NATIVE PRESS.

THE MAHRATTA.

WHY is the Government playing at bo-peep with the Malyas. The members of the deputation they sent to Simla were referred to the Foreign Secretary. The Foreign Secretary in his turn referred them to the Government of Bombay. We all know this, and it is more than a week since the news was published. But the much-expected Resolution of the Government of India, which, it is believed, has been for some time in the hands of the Government of Bombay, does not yet turn up! Was it lost on its way from Simla? Or are the Government of Bombay preparing to fight a battle over it with the Supreme Government as they did in the local self-government question? The mystery baffles all discovery, though for one thing the delay in publishing the new Resolution goes a great way in suggesting that the Government of India have probably set aside the Bombay Government's decision.—*India Prakash.*

THE RUTNAGHERRY CASE.

IT may seem a little out of the way on the part of Government to have tried to interfere with the highest judicial tribunal in the Presidency in respect of a matter, in which even the Privy Council has no right to interfere. But the Resolution of the Government does not profess to do anything of the kind. It merely says that public opinion will be startled if by the public, and that errors of this sort on the part of the High Court, if repeated, will assuredly shake the confidence of the public in the judicial tribunals of the country. Understood in this light, the Resolution must receive the cordial approbation of every lover of justice. That Mr. Wilson, the Magistrate of Rutnagherry, was not to blame, and that his character is not to be compromised, acted most indiscreetly no reasonable man doubts. Mr. Goldsmid, the Police Superintendent, also failed in his duty. Were conduct of this sort to pass uncensured, attempts of the kind would become common, people would lose all faith in the notion that the British Government protects life as well as property. The Resolution is therefore most opportunely issued, and however much we may regret that the highest Court of Justice in the Presidency has placed itself in an awkward predicament by an awkward decision, we are bound to say that the Government of Bombay has done the wisest thing it could have done by assuring the public that, so far as it is concerned, it is prepared to do all that lies in its power to discourage attempts to shoot at people on frivolous grounds.—*Id.*

DR. GRAY.—The vacancy caused in the Municipal Corporation by the melancholy death of Dr. Cody, could not have been better filled up by the Government than by the appointment of Dr. Gray. The learned doctor is a rather unobtrusive gentleman, but he is not a man of prejudices or crotchets. It seems he has of late been paying his attention to the drainage question. The Corporation is likely to be benefitted by this new addition to its ranks. —*Id.*

### A BOMBAY COMMISSARIAT TENDER CASE.

WE have already alluded briefly to the subject of the beer contracts for the supply of the troops in the Bombay Presidency. In the interests of "private enterprise," and of the country's trade generally, we would now draw attention to the circumstances under which the tenders submitted last April were received and dealt with by the Bombay Commissariat. There is no wish, it may be said at once, in doing this, to impute the least bad faith to the officers who had charge of the transaction; but at the same time it appears to be desirable that the facts should become generally known, if only as a warning to other firms of what they may expect from the curiously unbusinesslike habits of the department.

On the 6th December last an advertisement was published by the Bombay Commissariat announcing that on the 5th March following *sealed* tenders would be received by the Executive Commissariat at the Presidency for the supply of Indian manufactured porter and pale ale, for five years, at certain specified stations. The conditions of tender were then notified to the following terms:—

"Tenders will be received up to noon of 5th March, 1883, only when they will be opened in this office, and the rates read in the presence of such of the tenderers as may attend.....No tender will be received or attended to unless accompanied by the necessary earnest-money, in treasury receipt, *viz.*, 2½ per cent. on the estimated value of one year's supply only."

It is certain, then, with this advertisement of tenders were submitted on the day named. With those that came from England we have nothing to do. But besides these there were three Indian firms that competed—the Crown Brewery Company of Mussoorie, the Nilgiri Brewery Company, and the Murree Brewery Company. When the hour came for the opening of the envelopes containing the tenders, it was noticed, we understand, by the agents of the Murree Company, who were present, that the Commissariat Officer entered the room with two of the envelopes, that should have been sealed, open in his hand. These were the tenders of the Crown and Nilgiri Companies. The irregularity having been noted by the Murree Company's agents, they submitted on the same day a protest to the Commissariat Officer, pointing out that theirs was the only tender fulfilling the terms of the advertisement. On a further inquiry it was ascertained, moreover, that there was another flaw in the Crown Company's tender, namely, that it was not accompanied by the required receipt for the earnest-money. We believe that these facts are not denied by the Bombay Commissariat. Nevertheless, no action was taken upon the representations made, and on the 7th April, the directors of the Murree Company felt themselves compelled to lay the whole case before His Excellency the Viceroy, withdrawing, at the same time, altogether from the competition, that their motives for moving in the matter might not be open to misinterpretation. In consequence of this an inquiry was made by the Government of India, and on the 16th May the following reply was addressed to the directors:—

"The undersigned is directed to inform the directors, Murree Brewery Company, in reply to their telegram of the 6th and their manager's letter of the 7th April, 1883, to the address of the Private Secretary to His Excellency the Viceroy, that it has been ascertained that the tenders for the supply of beer were opened by the Commissariat Officers at Bombay before the stipulated time by a mere mistake, and that the Government of India, after the fullest inquiry are satisfied that the imputation of bad faith made by the directors is unjustifiable.

T. DEANE, Major,
Asst. Secy. to the Govt. of India."

In consequence of this reply the directors withdrew their imputation, and ceased to, beyond a brief protest to the Bombay Government, move in the matter. The tender of the Crown Company for Neemuch and Nusseerabad was eventually

IN THE ENGLISH HIGH COURT OF JUDICATURE
THE "BULL DOG'S HEAD" BRAND.
(BASS'S ALE AND GUINNESS'S STOUT.)

READ BROTHERS, of London, request purchasers of their Bottled Ale and Stout to ask for "THE DOG'S HEAD BRAND," because another and totally distinct Bottler uses the figure of a Bull Dog, and bins two bottlings of entirely different character may both be called "BULL Dog."

The original "Bull Dog" mark is the registered property of READ BROTHERS, and their bottling still often exactly that name, but the title of "DOG'S HEAD BRAND" is theirs exclusively, and is the only one that is protected by the injunction of the Lords Justices of England.

## MUNICIPALITY OF RANGOON.

### DEBENTURE LOAN.

THE Municipal Committee for the city of Rangoon are prepared, with the sanction of the local Government, conveyed in order No. 266-27 M., dated 10th February, 1883, under Section 7 of the Public Works Loan Act of 1879, to receive TENDERS FOR A DEBENTURE LOAN of (Rs. 4,00,000) four lakhs of Rupees, on the security of the rates and taxes levied under the Municipal Act VII. of 1874 for the completion of the Rangoon Water Works.

II. Debentures will be issued for the same amount bearing interest at the rate of (5) five per cent. per annum, payable half-yearly on the 15th March and 15th September of each year.

Debenture Bonds to the extent of eight thousand rupees will be paid off half-yearly and the Debenture Bonds to be paid off will be determined by yearly drawing, the first to be in the month of August, 1883, and thereafter in the months of February and August of each year, and the last in the month of February, 1913, of which notice will be given in one or more of the local papers. The numbers of the Debenture Bonds drawn to be paid off will be notified in one or more of the local papers, and no interest will be paid on such Debentures after the 15th March or 15th September next following. The drawings will take place at the Municipal Office and be conducted by the Finance Sub-Committee of the Municipality.

III. The form of Debenture Bonds will be that given below. Each Debenture will be issued for the sum of Rs. 500.

IV. Tenders for the whole or any part of the abovenamed sum of (Rs. 4,00,000) four lakhs of Rupees will be received by the President of the Municipal Committee up to noon on the 17th July, 1883.

V. Each tender should be in the form hereto annexed, and enclosed in a sealed cover, superscribed "Tender for Municipal Loan of 1883," and sent to the Municipal office, addressed to "The President, Municipal Committee, Rangoon."

VI. The tenders will be opened by the President at the Municipal Office on the 7th August, 1883 at noon, a minimum rate having first been fixed by the Finance Sub-Committee.

VII. Parties tendering must pay into the Bank of Bengal to the credit of the Municipal Fund a sum equal to 2 per cent. of the amount tendered and forward the Bank receipt with the tender.

VIII. If the tender be accepted the deposit will be taken in part payment, but it will be forfeited if, after the acceptance of the tender, the allotment is not fully paid up on or before the 7th September, 1883.

IX. Debentures will be issued as soon as possible after receipt of the amount of allotment.

X. The deposit on tenders which may not be accepted will be returned on application.

XI. In the case of two or more tenders at the same rate (not being below the minimum) a proportionate allotment will, if necessary, be made.

XII. The rate stated in a tender must not contain any fraction of an anna; if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna.

XIII. In order to avoid mistakes a separate tender must be made at each rate tendered and a separate deposit must accompany each tender.

XIV. The annual income from the rates and taxes which are offered as security for the loan amount to Rs. 9,80,000. The charges for loans which have already been raised on the same security are as follows:—

Interest at 6 per cent. on Rs. [illegible] payable to Government.
Interest at 5½ per cent. on Rs. 7,00,000 payable to the Bank of Bengal.
